1	Anycheck Information Technologies Co.,Ltd.	With 14 years of experience in R&D and services, Anycheck Information is a high-tech enterprise specialized in "Internet + Medical + Health Management + Senior Care". It is a leading solution provider of biosensor, life searching and location technology, medical informationization, health management and chronic disease intervention at home and abroad. Oriented in Shenzhen, APEX has set up R&D and manufacturing facilities in Beijing City, Xi'an City, Yangzhou City as well as Canada and France, to better serve its clients, which include the 248 AA-rated, AAA-rated hospitals and medical facilities in more than 20 provinces of China.	<p>To connect with top performers of the world's Internet+ medical industry</p> <p>To identify global partners in the health management sector</p> <p>To present cutting-edge intelligent health monitoring equipments and e-health products.</p>	Self-service all-in-one health monitor and e-health products
2	B&P Automation Dynamics Ltd.	B&P Automation Dynamics Ltd. is at present the only provider capable of offering one-stop solutions and hardware for intelligent plants in Industry 4.0. Based on the 13 R&D and manufacturing centers in Beijing, Xi'an, Kunshan, Dongguan, Zhongshan, Shenzhen and in America, Britain, Germany, Malaysia, Thailan and Singapore, it has developed 7 core businesses and set up relevant research teams centering Industry 4.0. With the establishment of a complete industrial chain of Intelligent Plants, B&P also finished its positioning in the global market. The Company will stay committed to the idea of Human-oriented and Sustainable Business and keep providing to customers with high quality products and users-friendly services for win-win development	<p>To connect with enterprises from the intelligent manufacturing industry interested in industrial upgrading. To meet with technical teams and counterparts at home and abroad for information exchanges.</p>	Intelligent warehouse, MES system, AGV, non-standard visual equipment, automation equipment, robot, test system
3	Shenzhen Bysmart Intelligent Technology Co.,Ltd.	Shenzhen Bysmart Intelligent Technology is a software technology company in Shenzhen with international competitiveness. It provides products and solutions for Intelligent Residency, Intelligent Hotel, Villa and Club. Intelligent Community, Intelligent Office and Intelligent Apartments. Professionals, experts and specialists in Bysmart value Dedication, innovation, Credibility and Complishment. Bysmart possesses a huge R&D team and is proud of its resourceful marketing staffs. Up till now, it has owned over 20 patents and established itself a leading figue in China's Intelligent Control System products. Bysmart believes every detail deserves our attention and every piece of attention marks up to a perfect product.	<p>Real estate developers / weak current integrators / decoration design companies / Property Management companies / hotel engineering companies/ agents / intelligent hardware manufacturers / solutions providers/online shopping and E-commerce platforms</p>	Smart home, intelligent security, intelligent home appliances
4	4DAGE Technology Co., Ltd.	4DAGE Technology is a high-tech company featuring 3D digital reconstruction, technology and service of digital virtual display. As a start-up company, 4DAGE focused on 3D modeling and pioneered China's 3D modeling and printing. It possesses 6 core patents, including Device for Human 3D Digital Reconstruction based on Kinect, Fine Reconstruction based on Raster Scanning Equipment, 3D Digital Reconstruction based on Spherical Camera, and 3D Digital Reconstruction based on Single Camera. With independent R&D technologies, 4DAGE achieved breakthroughs in 3D digital reconstruction, full automation without human intervention in 3D digitalization on small objects and designed the world's first micro 3D digital fine scanning technology with the its world-leading team in software algorithms	<p>To connect with users of VR, AR technologies</p> <p>To study latest development of the technologies, including artificial intelligence, visual recognition</p> <p>To increase sufficiency of corporate management</p> <p>To develop technical cooperation with teams and professionals of "3D modeling based on the picture"</p>	AR Medincine T-shirts, AR Books, Mix-Reality 3D Virtual Exhibition for industrial product
5	Zhaoyang Zhuhai Information Technology Co., Ltd.	Zhuhai Zhaoyang Information Technology Co., Ltd., provides customers with high-tech information technology solutions. Founded in 2003, it is a seasoned information service system integrators. The company adheres to the principle of technology oriented and customer based. Thanks to its strong team of first class network engineers and artificial intelligence professionals in the data and R&D center, Zhaoyang keeps providing quality products and best services to customers.	<p>To cooperate with scientific research institutions and establish win-win partnership</p>	Computer application software development ; The computer information suster integration Project

6	Zhuhai South Integrated Circuit Design Service Center	South Integrated Circuit Design Service Center is a non-profit organization, jointly founded by the Commission of Economy and Information of Guangdong Province and the Information Industry Administration of Zhuhai City in 2004, with a view to facilitating the establishment of the province's IC design technology platform. The Center took a landmass of 1,300 square meters and is now the industrial base of IC design and production in Guangdong Province. It was divided into eight functional sectors (i.e. EDA design, chip testing, training, product display, conference , computer control, administration and VIP launge) and is the leading provider of technological support in R&D, technical consultation, personnel training as well as systematic promotion for the IC design industry in Guangdong (except for Shenzhen City).	Providing a professional platform includes technical achievement-product trasition,commercialization,enterprise operation planning, business model, and	A professional platform of business planning, , design testing and evaluation as well as EDA training and consulting for the industrailization of IC technolog, its marketing and promotion.
7	Zhuhai XH Smartcard Co., Ltd.	Zhuhai XH Smartcard is a leading provider of smart cards and smart Solutions in finance, telecommunication, transportation and governance. It took XH Smartcard only 6 years to obtain creditentials from industrial giants like UnionPay, VISA, MasterCard and SAS. XH Smartcard was credited as a high-tech Company at the provincial level and a Key Technology Center in Corporates named by the Municipality of Zhuhai City. It ranked third in terms of smart card export in China. Collabration with the world's best team enables XH Smartcard to reach the top level of the industry.	To connect with banks and mobile operators for cooperation in smart cards and smart solutions, including artificial intelligence.	SIM cards, bank cards, intelligent system
Electronics				
8	Actions (Zhuhai)Technology Co., Ltd.	Actions is a leading fabless IC design company in China. It provides comprehensive multimedia and mobile internet system-on-a-chip (SoC) for portable consumer electronics. Products range from SoCs, firmware, software, solution development kits (SDK) to detailed specifications of other required components. Its technology solutions enable clients not only to quickly introduce new portable electronics to the mass market, but to develop new customized solutions in cost effective way through Actions's open source reference design platform. Oriented in Zhuhai, Actions has opened district offices in Shenzhen, Hongkong SAR, Taipei City and Hefei province as the market expands.	Interests in IC design and IP Core with a focus on Multimedia and communication.	Complete product and technology solutions that enable clients not only to quickly introduce new portable consumer electronics to the mass market, but to qicly develop new customized solutions in a cost effective way .
9	APEX Microelectronics Co.,Ltd.	APEX is the world's largest manufacturer and provider of printer cartridge chips and systematic solutions of chip resetting in the aftermarket. It has an R&D team of over 200 dedicated professionals to develop state-of-the-art products and secure best supports to the users. In possession of over 310 international patents, APEX stays innovative and users-friendly aims to provide the safest and most comprehensive chip solutions to the cartridge manufacturing community.	To keep up with the cutting edge technology and to have insights of sufficient corporate management.	Chips for Ink & Toner Cartridge

10	Shenzhen Qifei Technology Co., Ltd.	Shenzhen Prafly Technology Co., Ltd. is a provider of intelligent robot and high-end control system solutions. It focuses on R&D of Smart Retail, WIT120, AI platform and the application solutions for AI Robots in interlectual manufacturing sector. Prafly is committed to the constrction of a user-centered smart society. Its innovation is based on clients' need and provides competitive solutions for the industry. It enables clients to secure success in the intelligent development of the society and contributes to an all round development of the AI collaborative robots.Prafly Research Institute accomodates the core of its R&D team and is consists of laboratories of AI, Visal Image, Multi-dimension sensing, control system and precise machinery. Prafly has been widely used in information security, Smart Retail, WIT 120, internet of vehicles ,Intelligent manufacturing, energy efficiency, Beidou navigation and industry information safety. Founded in 2000, Oriented in Futian CBD, Shenzhen, Prafly set up companies and branches in Beijing, Shanghai, Chengdu, Hangzhou, Jinan, Xi'an, Wuhan, Guangzhou, and Fuzhou. Its independent R&D centers in Shenzhen headquarter and Hanozhou took a total landmass of 20 000 square meters and	To look into the latest development in AI and Smart Retail as well as status quo of the market. To identify partners for productive cooperatin and to present Prafly's AI Robot and Smart Retail products	AI Robot and Smart Retail
11	Zhuhai bonded Zone Hongyang Electronic Technology Co., Ltd.	The research and development laboratory was formally established in Zhuhai Bonded Area on February 9, 2001, and these research and development projects respond rapidly to the increasing demand of diversified digital and optical industries in the globalized market. With an international distribution and service network in more than 50 countries around the world, it focuses on production and trading of audio and video parts, communication network peripheral products, wire, satellite and cable equipmenst, fiber products, photoelectric transfer equipments and wireless communication equipment.	To identify partners for cooperation in electronic accessories and for distributions	Set top box catv/smatv product
Financing & Investment				
12	Shenzhen Investment Holdings Co., Ltd.	Established in October 2004, Shenzhen Investment Holdings Co., Ltd. (SIHC) is a new state-owned capital investment and operation company based on three former state-owned assets operation and management companies in Shenzhen.
